About Me

I am a freelance web designer, developer, and photographer based in North Carolina.

I have a professional background in web design, and a degree in Computer Science.

Whether your next project is an online store, website for your business, or a simple brochure, I'll be ready to help!

This is what I do

I provide media design, development, photography, graphics, video, applications programming, accounting and notary services.

Oh, and I'm also a Registered ER Nurse.

Web Design

With over 25 years of experience, I will make sure your web site features your best attributes!

Web Development

Custom programming with all of today's current technologies neatly wrapped with you in mind.

Photography using stock or custom images to make your web site have visual impact!

Custom graphics created to your specifications to match your corporate image.

Video Production

Hi-Def video to showcase your products and services using all digital technology.

iOS Programming

With today's on-the-go portable, social media clientele you need your brand front and center. *Android too!*

Accounting/Payroll/Notary

Industry leading QuickBooks for all your accounting and payroll needs. Sometimes you just need to "sign on the dotted line" and make it all legal.

Blended Imagination
